Prof. Harris, Prof. Scott, Mrs. Temple and Mrs. Vannuys attended the temperance convention at Independence.

We would suggest to the people of Iola that a first-class hedge row to the eastern line of the county would not cost much; and then we could offer the railroad men a "grade!"

Odd Fellows' Hall is being thoroughly overhauled and repaired. It will be furnished with new carpet and in other ways be made a pleasant place for the brethren to meet.

We are informed by Assessor Harris that the returns this year show an increase of persons over the age of twenty-one, in Iola city, of one-fourth over the returns of last year.

Mrs. Goforth will accompany Munro, to Topeka next week and then go on to Junction City to make a visit. Mr. G. will return by way of Kansas City for the purpose of buying goods.

Mrs. Julia A. Whitney has removed her stock of music and fancy goods to her new room on the south side of the square where she will be pleased to see her friends. A full line of musical instruments just opened.

Saturday afternoon auctions will be held every week from now on. Parties having anything to sell at public sale will always be sure of a good crowd and either Dr. Hartor or Chas. D. Briggs will sell it for all its worth.

We can say to the townships east and south-east that if a road runs to Iola through their locality that we can and will do our part. This place will not ask them to pay for our whistle. Pay for what you get and no more.

Mr. J. N. White has gone to Lee's Summit, Mo., at which place he has put up a steam flouring mill. We are sorry to lose Mr. W. from Iola, and can heartily recommend him to the people among whom he has cast his lot.

We tender our warmest thanks to Tennie Whitney for a beautiful bouquet of roses of different varieties. A portion were the exquisite moss roses. We are always glad to be so kindly remembered by the little girls of Iola and vicinity.

Another magnificent rain visited this locality Tuesday evening and Wednesday forenoon. The rain came slowly, soaking into the ground as it fell. There can be no question but that good crops will be universal this season.

The additional 5 per cent. penalty which is added to unpaid taxes does not attach until June 20th instead of the present month as stated by the Independent. Pay your taxes on or before the 20th of next month and you are all right.

Iola township forms the 8th and 9th district of the First District of Kansas on the census roll. Prof. Scott and Chas. D. Briggs are appointed as enumerators. Prof. Scott takes the city and Briggs the remainder of the township. Their commissions have arrived.

THE REGISTER has been carefully compiling a mass of statistics showing the growth of Iola for the year last past, and as soon as it can properly be prepared we will present our readers with an article complete in all particulars, and it may be depended upon as reliable.

Col. Goulding gave excellent satisfaction in his lectures at this place last week. Many thinking him the best speaker we have had so far. He has strong recommendations with him, and from his addresses here we can cordially recommend him to the craft and temperance people elsewhere.

As our paper is being printed Gov. St. John is addressing a crowded house at the Court House upon the subject of prohibition. The Governor can make a strong, effective campaign speech, and we have no hesitancy in commending his ability, in advance. The time is unfortunate so far as any report we should like to make.

Elmore township was well represented in Iola Wednesday; and they still stay with us. The boys come up part as witnesses and part as spectators in the celebrated case of "Whoop 'em up" vs. "Whoop 'em up." And both sides will find comfortable quarters at our various hotels and are cordially invited to make themselves at home.

Attention is called to the advertisement of Mr. L. B. Roach, lately from Garnett, in this week's paper. Mr. R. comes to Iola well prepared to give our farmers bargains in his line and will be pleased to receive a fair share of trade. Call and make his acquaintance, for you will find him a very pleasant gentleman in every respect.

Mr. Chas. W. Price, of the Topeka Capital, has been visiting relatives in Iola this week. Mr. Price is an energetic young man, and will make his mark in journalism in this State. He will remain in Allen county two or three weeks resting up, when he will again assume his duties on the above paper as city editor.

The Humboldt Union affirms that some members of the land league were engaged in the late outbreak in Elmore. As the parties charged deny it, possibly the Union can prove its statement, but until proven it amounts to nothing. So far as the sheriff is concerned, he did his duty and without fear or prejudice, and the Union instead of censuring should uphold him. But as usual it only expresses its views from a selfish standpoint.

The case of State vs. S. Wilcox for assault with intent to kill was called before Justice McDonald of Iola Wednesday and the trial is still in progress. Slavens, Goodin & Fife for State, Hutchings and Richards for defense. The defense claim to be able to prove a strong alibi. At present we cannot comment upon the case. There are several parties concerned and it will take fully a week, at the present rate of progress, to determine the case.

Thursday of last week was the twelfth anniversary of the wedding of Mr. and Mrs. C. M. Simpson. Quite a number of the friends of our excellent postmaster were invited and attended a social at his residence that evening and it was not until a late hour that the guests wended their way homeward "Cy." as everybody calls him, is very popular and all wish him and his estimable lady many happy returns of their wedding anniversary day.

If you want to borrow money from one to five years time with or without commissions, at low rates, in sums from \$100 up, call on Geo. A. Bowlin, Manager Neosho Valley Land Agency.

Some boys and young men tied the door of the M. E. Church Saturday night and the audience were compelled to wait until the sexton got out of the window and untied it. There will be trouble if another such affair occurs and "our boys" will have a fine and costly to pay.

The Christian church society are circulating subscription papers for the purpose of raising funds to build a church for their denomination at this place. It is to be hoped they will receive substantial encouragement, and that they will easily raise the required amount. A few dollars from all will aid them very much indeed, and they certainly deserve it. At one time, in the early days, they were the principal church at this place.

At the city council meeting Monday night the report of the Board of Health was read and the marshal instructed to notify the parties against whom complaint was made. The report made seven or eight foolscap pages closely written and the entire report was made in a careful exhaustive manner. Prompt attention to the recommendations made will add to the healthiness of our town during the heated term. No further business was transacted and the council adjourned.

Prof. C. L. Barnes, who was in this city some four months, and who did some fine execution in the way of portrait painting while here, left Tuesday morning for the west, accompanied by his estimable wife. His brother, M. D. Barnes, remains here, and solicits orders, especially for buggy and sign painting.—Chase County Current.

Mr. Barnes has located here and already has taken several orders for all kinds of painting.—Florence Herald. The above, we presume, refers to "Prof. C. L. Barnes" who it was supposed deserted his wife at Iola last winter. It may not be the same one, but if it is we should like to know which wife is with him now.

The Ft. Scott Monitor, in speaking of the return of the party who visited a portion of Allen county in the interest of the proposed east and west railroad, says: "If the people along the road desire the road, and will be in favor of voting sufficient aid and encouragement, they say they will at once go to work and push the thing through." As they neglected to visit the principal townships from which aid could be voted and went where bonds could not be obtained or if obtained would be worthless, it looks as if they wanted to stir up competition. Iola can plank down "value received" for a bona fide road but we do not want a "straw man." When the capitalists get ready for business we can give them just what their goods are worth. And if they want to sell they will go where they can get the best terms.

The County Commissioners have received and accepted a proposition to fund the railroad bonds of the county at ninety cents on the dollar. The new bonds draw six instead of seven per cent. and run thirty years. We see the Independent gives County Clerk Stover the principal credit and upon which we take exceptions. The credit belongs to Messrs. Sims, Christian, Long and McCarty as principals. Of course Mr. Stover acted as clerk for the board, and no doubt did his part of the work well. County Attorney Slavens and Mr. J. H. Richards also did their share; and in fact the people generally (by standing up to the actions of the Board) did their part too. Without detracting from Mr. Stover we still think there are many others that did fully as much. We cheerfully accord all our officers due credit, but in our opinion the Commissioners are the ones who ran the risk and deserve the highest praise.
